## HERMITAGE POST SLEEVE AND CAP KIT GUIDE

- This sleeve is made in three sizes. We have a 4.75" x 4.75" Sleeve to fit over a 4x4 post, a 6.75" x 6.75" Sleeve to fit over a 6x6 post, or a 11.75" x 11.75" sleeve for a more stately look, which can be installed over the post size of your choosing.
- If installing larger sleeves over smaller size posts, make sure to block out at railing attachments.
- To attach skirt to sleeve, you can either slide the skirt over the top of the sleeve, or set the skirt on the base of the post and set the sleeve inside. [Skirt will arrive boxed with post cap]
- To attach cap to sleeve, apply small amount of gorilla glue at inside corners of cap and place on sleeve OR attach with brad nails through sides of cap.
